

Sikorsky UH-60 Black Hawk Helicopter

The UH-60, Black Hawk, helicopter is frequently used for military purposes. Black Hawks have served in combat during conflicts in Grenada, Panama, Iraq, Somalia, the Balkans, Afghanistan, and other areas in the Middle East. The Blackhawk has a revolutionary airframe, a large cabin which is capable of carrying 11 fully armed troopers. The U.S. Army, Navy, Air Force and Coast Guard use variants of the UH-60 (S-70) helicopter.

Mockup Specs

Seating: 17 people: 2 pilots, 2 gunners and 13 troop seats. Multiple configurations available.
