

## Boeing 727/737 Cockpit Wreck

The Boeing Cockpit mockup resembles a 707, 727 and 737 aircraft. It is a medium range commercial jet liner that is widely used around the world. The single aisle B737 airplane is still being utilized with Southwest, American and Delta Air Lines, to name a few.

### Mockup Specs

**Seating:** 3 people: 2 Front and a flight engineer (Crew) in cockpit.

**Paint Scheme:**

**Ext:** White

**Int:** Light Gray

**Note:** Wreckage is already damaged with ripped and cut fuselage skin for effect.

Cockpit
