

## Sikorsky S-76 Helicopter

The Sikorsky S-76C/D is an American medium-size commercial or military utility helicopter. The S-76 is in civil service around the world with airlines, corporations, hospitals, and government operators. The S-76 airframe is mounted onto a steel base for motion base ("gimbal") applications.

### Mockup Specs:

**Seating:** 2 pilots, and 4 passenger seats with optional for 6. Cockpit windows and doors are wild. This S-76 can be refitted with a corporate interior. Contact us about the change out.

### Paint Scheme:

**Ext:** Current base color is matte white. Optional to paint to production color scheme.

**Int:** Cockpit is black with gray seats. Passenger cabin is in current Rescue model.

**Instrument Panel:** The panel is built with seven (7) flat digital screens for playback.

S76 shown with hoist above the slider doors and mounted to a base with casters.

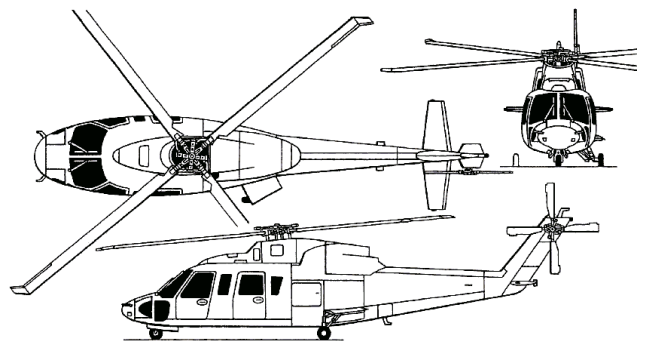

Cockpit compartment with a newer S-76 D model panel. A total of 7 color playback screens.

### Mockup Dimensions

**Total Dimensions:** L: 26.5 feet  
W: 7.8 feet  
H: 10.7 feet  
Weight: 4,500 lbs

Tail Boom and Main and Tail Rotor assembly are not available for this mockup.
