

Boeing 767-300 / 400 Cockpit Section

The Boeing 767 is a wide body twin engine jet liner that is utilized worldwide as a passenger or cargo aircraft and it also serves as a KC-46A Tanker for the U.S. Air Force, including other countries. Our B-767-300/400 cockpit comes with an instrument panel outfitted with color display set up for playback. A section of the rear bulkhead wall & four windows are wild. The cockpit is also mounted to steel frame for motion base (gimbal) work.
